Dear Sir:

This paper is filed in response to the non-final Office Action that was mailed August 29, 2006. Please enter the following amendments to the claims and remarks without prejudice as to patentability, including the doctrine of equivalents.

Claims 2, 4, 5, 9, 11-13, 16, 19-25, 32-38, 40, 44, 46-48, 58-64, 72, 77, 80, 82, 84-86, 94-106 and 108-114 are pending in this application. Please note that the Examiner indicated an intent to remove the restriction requirement regarding claims 58-64, 72, 77, 80, 82, 84-86, 94-106 and 108-113, although Applicant failed to acknowledge this in writing previously.

Claims 34-37 are object to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitation of the base claim and any intervening claims. Such amendments are made below. All other claims are cancelled without prejudice and are expected to be the subject of an additional filing. A copy of all claims is shown below.
